- Point-of-Sale
- Ticketing
- Retail
- Hospitality

- TSP651** Tear Bar Version
- TSP654** Autocutter Version

All models are available in charcoal grey or Star white, with either serial RS232C or parallel interfaces as standard. (USB and low cost Ethernet options are available for future upgrades)

AutoLogo™ - a valuable graphics utility from Star

AutoLogo™ is a Star PoS Printer "side" feature working alongside existing POS software. It allows users to quickly and easily add logos or information / graphics to a receipt without affecting existing software.

Many retailers are prepared to "live" with their current receipt format as the benefits of changing the top logo or using the receipt for distributing information such as imminent sales or holiday closing times etc are outweighed by the cost and disturbance of major software changes. AutoLogo™ allows retailers to achieve these benefits without any IT upsets.
