SPECIFICATIONS
C3400BK/C3400/C3510

MODEL NUMBER		C3400BK	C3400	C3510
Print Technology	Technology	MicroPiezo® ink jet technology, serial ink jet dot matrix		
	Colour	Single colour printing (Black pigment ink)	Three-colour printing (Pigment ink: C, M, Y)	Four-colour printing, individual ink cartridge (DURABrite Ultra pigment ink: C, M, Y, K)
Ink Cartridge	Colour (Pigment Ink)	Black	Cyan, Magenta, Yellow	Cyan, Magenta, Yellow, Black
	Model	SJIC20P(K)	SJIC15P	SJIC23P(C), SJIC23P(M), SJIC23P(Y), SJIC23P(K)
Print Resolution		Up to 720 × 360 dpi		
Printing Width		Max. 104mm (Max. 1,474 dot positions / 360dpi)		
Print Speed		Max. 92mm/sec. (Printing Width: 56mm, 360 x 180 dpi, Bi-directional Printing)		Max. 103mm/sec. (Printing Width: 56mm, 360 x 360 dpi, Bi-directional Printing)
Interfaces		Hi-Speed USB or Ethernet (100BASE-TX /10BASE-T)		Hi-Speed USB 2.0 and Ethernet (100BASE-TX /10BASE-T)
Print Font		Not equipped with print fonts; prints all data as the graphic data		
Barcode Font (Printer Driver Built-in)		Barcode: UPC-A, UPC-E, JAN13(EAN), JAN8(EAN), Code39, ITF, Codabar, Code93, Code128, GS1-128, GS1 DataBar Omnidirectional, GS1 DataBar Truncated, GS1 DataBar Limited, GS1 DataBar Expanded Two-dimensional symbols: PDF417, QR Code, Maxi Code, GS1 DataBar Stacked, GS1 DataBar Stacked Omnidirectional, GS1 DataBar Expanded Stacked, DataMatrix, Aztec Code		
Media Source		Roll-fed, Fanfold		
Media Types		Plain, Matte, Synthetic, PET Film		Plain, Matte, Glossy, Synthetic

* The protrusion excluded.

Usage Restrictions:
When this product is used for applications requiring high reliability / safety such as transportation devises related to aviation, rail, marine, automotive etc.; disaster prevention devises; various safety devise etc; or functional / precision devise etc, you should use this product only after giving consideration by inclusion of fail-safes and redundancies into your design to maintain safety and total system reliability. Because this product was not intended for use in applications requiring extremely high reliability / safety such as aerospace equipment, main communication equipment, nuclear power control equipment, or medical equipment related to direct medical care etc, please make your own judgment on this product's suitability after full evaluation.

Dimensions & Weight

INKJET COLOUR LABEL PRINTERS
C3400BK/C3400/C3510

ON-DEMAND COLOUR LABELS FOR COST SAVINGS AND INCREASED EFFICIENCY.

Epson's C3400 and C3510 deliver high-quality colour labels on-demand to improve efficiencies and reduce labelling costs. With a high printing speed of up to 103mm per second, excellent resolution and reliability, these printers are the perfect choice for industrial, chemical, warehousing, medical and other labelling applications. Now you can do away with expensive pre-printed labels and simply print them whenever you need.

High Speed Printing | High Capacity Inks | Auto Cutter | USB 2.0 | Ethernet

LKH ELECTRIC

Colour Labels On-Demand
Designed to meet the needs of high-mix, low-volume applications that require multiple label variations.

Better Inventory Management
Save up to 50% on labelling costs by reducing the need to stock up on different types of pre-printed labels.

BS5609 Certified
Printers, used together with pigment inks and approved media, are BS5609 certified to print GHS-compliant labels.

With the C3510 and C3400, you can colour-code important information and print colour labels that are easily differentiated. With Epson's label printers, you enjoy a reliable and cost-effective print-on-demand solution without compromising on the quality of print.

Colour Labels On-Demand

Print colour codes, images and pictograms to highlight relevant information easily. Designed to meet the needs of customers producing high-mix, low-volume applications, the C3510 and C3400 allow you to print multiple label variations in a breeze, improving product identification and productivity.

* With printing speeds at up to four inches per second and a new 4-colour system, these printers deliver stunning image resolution. The addition of black ink increases the range of colour customers can reproduce.

Medication bag label

Blood bag label

Better Inventory Management

On-demand printing means you don't have to stock up on expensive pre-printed colour labels you may never use. By leveraging the printers' on-demand colour labelling technology, you save up to as much as 50% on labelling costs and increase work productivity.

Prescription label

Specimen label

BS5609 Certified

Meet your regulatory requirements within the chemical industry with GHS-compliant labels. Both the C3510 and C3400 label printers, Epson's pigment inks and its wide variety of approved media are also BS5609 certified, making these label printers the ideal low-cost solution for the GHS market.
GHS-compliant label
Superior Print Quality

Ensure sharp print images on every label. Epson's patented MicroPiezo® inkjet technology together with our pigment inks ensure labels with crisp, clear, easy-to-read text, barcodes and vibrant graphics that are long-lasting, quick-drying and fade resistant. The printouts are resistant to smudges and water, even on paper.
Epson pigment ink

Dye-based ink

Epson pigment ink is not water soluble and firmly binds to media fibers, resisting water and other moisture.

Conventional dye-based ink is water soluble so printouts can be negatively affected by water and other moisture.

With the auto nozzle check system, high-tech sensors detect clogs and ink droplets and quickly clean the nozzle so you get a reliable output of professional quality print labels every time.

Auto Nozzle check system

Without Auto Nozzle check system

With Auto Nozzle check system

High Capacity Individual Ink Cartridges*

With individual CMYK cartridges, you only need to replace each colour as it is used up. This means no wastage of ink and the ability to print large volumes continuously for greater savings and reduced production time.

DURABrite Ultra INK

Wide Variety of Media

Print on a wide range of media and enjoy on-demand colour labels in any environment. From plain, synthetic, matte to glossy stock, the C3510 and C3400 ensure labels of superior print quality, giving you sharp graphics. These label printers also handle roll, fanfold, die cut or continuous label media.

Premium matte ticket

High gloss label

PE matte label

Ease-of-use and Maintenance

The C3510 and C3400 are compact and support all major label software applications. Easy installation and maintenance allow manufacturers to monitor ink supply levels on an LCD display* and oversee multiple network printers in a system, reducing set-up time and minimising operational delays.

Environmental Protection

Unlike thermal printers or other inkjet technologies, Epson's MicroPiezo® inkjet technology uses no heating components. This means that energy consumption is extremely low during printing or in standby mode. In addition, the C3510 and C3400 are compliant with RoHS (Restriction of Hazardous Substances) and WEEE (Waste Electrical and Electronic Equipment) directives, thus ensuring continued contribution to the protection of our environment.

*Only applicable for TM-C3510.
