

rp3000 Point Of Sale System

The Point of Sale system that helps you focus on moving your business forward

The Intuit-HP Retail Solution Featuring the HP rp3000 Point of Sale System

In order for you to make better decisions about your retail business, you need a reliable Point of Sale (POS) Solution that will help you manage and control your operations. Intuit and HP have teamed together to create a unique retail solution to meet the needs of your growing business. At the core of the retail solution is the HP rp3000 POS system and Intuit's POS Software.

Where Flexibility Meets Functionality

The Intuit-HP Retail Solution includes peripherals from Intuit and your choice of an HP monitor (Touchscreen or Flat Panel Monitor). These peripherals are fully tested and integrated with the HP rp3000 to provide a reliable solution for your POS transactions. The rp3000 provides sufficient expansion and connectivity options, allowing your POS Solution to expand as you grow your business.

Retail-Ready Solution and Affordably Priced

Combining all the features and functionality of a POS solution with the economies of scale of a PC, the HP rp3000 POS System delivers enhanced functionality required in retail, while helping to drive down both the cost of acquisition and long-term total cost of ownership. The result is a solution that offers the best of all worlds – a reliable, retail-ready, and true Point of Sale solution at an affordable PC price.

Designed Specifically for Retail with the Reliability you Expect from HP

Providing incredible durability, the HP rp3000 POS System boasts a steel chassis and extensive on-board monitoring and alerts. In addition:

- Extreme environmental and shock testing help ensure reliability during the long-term wear and tear typical of a busy, rugged retail environment
- Oversized cooling enables longer continuous operation in an ambient 40°C/104°F environment
- Efficient, low-powered Intel® Atom™ processor uses less energy, helping you save on energy costs
- A lockable front cover and no front ports keep your data and receipts more secure for your business
- Color-coded Input/Output ports simplifies setup and presents a clean back panel to your customers

Ease Your Mind with HP Services and Support

Let HP take care of its products so you can take care of your business. HP provides worry-free maintenance with a standard three-year warranty on the rp3000 system with end-to-end service in one phone call. For HP services and support on your HP products, call the HP Retail POS dedicated support line at 1-866-852-4865, Option 3.

* Certain Windows Vista product features require advanced or additional hardware. See www.microsoft.com/windowsvista/getready/hardwarereqs.mspx and www.microsoft.com/windowsvista/getready/capable.mspx for details. Windows Vista Upgrade Advisor can help you determine which features of Windows Vista will run on your computer. To download the tool, visit www.windowsvista.com/upgradeadvisor.

- Windows Vista Business disk also included for future upgrade if desired. To qualify for this downgrade an end user must be a business (including governmental or educational institutions) and is expected to order at least 25 customer systems with the same custom image.
- Intel's numbering is not a measurement of higher performance.
- GHz refers to internal clock speed of the processor. Other factors besides clock speed may impact system and application performance.
- GB = 1 billion bytes. Actual formatted capacity is less. Up to 8GB is reserved for system recovery software
- Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 GB Double Sided – Version 1.0 media.
- The Computrace agent is shipped turned off, and must be activated by customers when they purchase a subscription. Subscriptions can be purchased for terms ranging from one to four years. Available in the United States only.
- Service levels and response times for HP Care Packs may vary depending on your geographic location. Restrictions and limitations apply. For details, visit www.hp.com/go/carepack.
